

UNIVERSITY OF CALIFORNIA

Campus:	San Diego
Project Name:	Structural & Materials Engineering Building
Project Description:	This project will provide 110,000 asf of instructional laboratories, research laboratories, offices, and related support space to accommodate enrollment growth in the School of Engineering. Structural and Materials Engineering will be the primary occupant, with space also being provided for Chemical Engineering, Aerospace Engineering, and similar units as well as the Department of Visual Arts. The addition of new space will allow released space in existing facilities to be reassigned to other programs to meet their growth needs.
